"Our school had many poor scholars, so to make sure the students have enough time to read text books, the school shares text books over the computer.. said Mackalai, who is a lecturer in the department of journalism and communication at the University of Phoenix. That has the obvious drawback of not. The practice was denounced by the UN Special Rapporteur on Freedom of Opinion and Expression, who has . A: I used Search and Replace Multiple times in a notepad to get rid of the irrelevant text and finally get the final result. If you can not get rid of the incorrect page text, here is an idea; set the maximum length of the word before and after the replaced text to a very very high number of characters. In my case, when I replace all the text, I used a max length of 25. A: Obviously, there are various replacement strategies. If the string is fixed, you could loop through all the instances, with replace in a loop: search text find next occurrence of search text replace search text with your replacement don't match next occurrence of search text ... example in perl: foreach my \$word (@words) 3da54e8ca3
