This Game Is Cracked And Highly Compressed Game.Q: Funcion para visualizar la cantidad a cambiar de productos Alguien sabe como puedo hacer esta función de cambio de cantidad que se encuentra en mi controlador: public function cambiarProductos(\$id){ \$producto

```
= Productos::where('id', $id)->first();  
  $product = Modelos::where('id',  
    $producto->id_modelo)->first();  
    $product->cantidad =  
      $producto->cantidad -  
$producto->cantidad; $product->save(); }
```

A: Lo que haría sería que la función debe devolver el resultado de la acción que esta realizando, no cambiar los atributos de la instancia del objeto. Una opción es hacer

```
esto: public function  
cambiarProductos($id){ $producto =  
  Productos::where('id', $id)->first();  
  $product = Modelos::where('id',  
    $producto->id_modelo)->first(); return  
$this->save($product); } Donde save es un  
metodo del modelo, en el caso de los  
modelos que tienen un nombre de clase,  
debe ser id esto mismo que quieras correr  
y creo las instancias si los datos que  
necesitas, o en su caso lo que sea que lo  
lames. What to do when there are no  
clients to refer to you. The life of a personal
